FINANCIAL GOALS

Dear Client/ members, these key rules are things you should put in your heart, remember, and do your best to practice on a regular basis. This is because your own financial success is **“YOUR GOAL IN YOUR HANDS!”** – It’s up to you! The rules will help you on your way.

Make a clear plan for your future and write it down!
Commit to follow your plan – with your family!
Write down when you meet a goal – congratulate yourselves!
Before you spend, ask yourself: Is this a need or a want? Is it necessary for me to live? Is it a priority I set and wrote down with my family? If not – think again!

“My goal, my wealth”
